CCO Holdings is a direct subsidiary of CCH I Holdings, LLC, which is an indirect subsidiary of Charter Communications, Inc. (“Charter”), Charter Communications Holdings, LLC (“Charter Holdings”) and Spectrum Management Holding Company, LLC (“Spectrum Management”). All of the outstanding capital stock of CCO Holdings Capital Corp. is owned by CCO Holdings. The consolidated financial statements include the accounts of CCO Holdings and all of its subsidiaries where the underlying operations reside. All significant intercompany accounts and transactions among consolidated entities have been eliminated. Charter, Charter Holdings and Spectrum Management have performed financing, cash management, treasury and other services for CCO Holdings on a centralized basis. Changes in member’s equity in the consolidated balance sheets related to these activities have been considered cash receipts (contributions) and payments (distributions) for purposes of the consolidated statements of cash flows and are reflected in financing activities.

The Company’s operations are managed and reported to its Chief Executive Officer (“CEO”), the Company’s chief operating decision maker, on a consolidated basis. The CEO assesses performance and allocates resources based on the consolidated results of operations. Under this organizational and reporting structure, the Company has one reportable segment.

Basis of Presentation

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, certain information and footnote disclosures typically included in the Company’s Annual Report on Form 10-K have been condensed or omitted for this quarterly report. The accompanying consolidated financial statements are unaudited and are subject to review by regulatory authorities. However, in the opinion of management, such financial statements include all adjustments, which consist of only normal recurring adjustments, necessary for a fair presentation of the results for the periods presented. Interim results are not necessarily indicative of results for a full year.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Areas involving significant judgments and estimates include capitalization of labor and overhead costs and pension benefits. Actual results could differ from those estimates. Certain prior period amounts have been reclassified to conform with the 2023 presentation.

Comprehensive income equaled consolidated net income for the three months ended March 31, 2023 and 2022.

Stock options generally expire ten years from the grant date and restricted stock units have no voting rights. Restricted stock generally vests one year from the date of grant.

As of March 31, 2023, total unrecognized compensation remaining to be recognized in future periods totaled \$643 million for stock options, \$0.2 million for restricted stock and \$701 million for restricted stock units and the weighted average period over which they are expected to be recognized is two years for stock options, one month for restricted stock and two years for restricted stock units.

The Company recorded stock compensation expense of \$208 million and \$147 million for the three months ended March 31, 2023 and 2022, respectively, which is included in operating costs and expenses.

Overview

Beginning in the first quarter of 2023, we removed separate mobile reporting, among several other changes, to better reflect the converged and integrated nature of our business and operations. We made the following changes to our reporting:

- Residential and small and medium business ("SMB") monthly revenue per customer calculations now include mobile service revenue
- Residential mobile service revenue previously included in mobile revenue is now separately reported in residential revenue
- SMB mobile service revenue previously included in mobile revenue is now included in SMB revenue
- Mobile equipment revenue previously included in mobile revenue is now included in other revenue
- Mobile expenses are no longer reported separately and are included in applicable expense categories
- Other costs of revenue includes regulatory, connectivity and produced content costs as well as mobile device costs and direct costs associated with mobile and selling advertising
- Costs to service customers now also includes costs related to field operations, network operations and customer operations for mobile customers but no longer includes costs to service bulk properties
- Sales and marketing expense, which previously included sales and marketing for Spectrum Enterprise, Spectrum Reach and Spectrum Networks as well as costs associated with selling to and servicing bulk properties, now only consists of residential and SMB sales and marketing expenses, including sales and marketing for mobile
- Other expense now also includes sales and marketing for Spectrum Enterprise, Spectrum Reach and Spectrum Networks as well as costs associated with selling to and servicing bulk properties but no longer includes direct costs associated with selling advertising
- Reclasses within capital expenditure categories were made to reclassify all costs associated with our network evolution initiative to upgrade/rebuild
- Line extensions capital expenditures are now broken out between subsidized rural construction line extensions and other line extensions
- Subsidized rural construction initiative capital expenditures subcategory only includes rural construction projects for which we are receiving subsidies from federal, state or local governments

There were no changes to total revenue, Adjusted EBITDA, capital expenditures or net income. Prior periods have been revised to conform with the presentation noted above.

During the first quarter of 2023, we added 686,000 mobile lines, 76,000 Internet customers and 16,000 residential and SMB customer relationships, which excludes mobile-only customers. Our Spectrum One offering, which brings together Spectrum Internet, Advanced WiFi and Unlimited Spectrum Mobile to offer consumers fast, reliable and secure online connections on their favorite devices at home and on-the-go in a high-value package, contributed to our increase in mobile lines in the first quarter. We continue to see lower customer move rates and switching behavior among providers, which has reduced our selling opportunities. We are beginning to see benefits from the targeted investments we are making in employee wages and benefits inside of our operations to build employee skill sets and tenure, as well as the continued investments in digitization of our

customer service platforms and proactive maintenance, all with the goal of improving the customer experience, reducing transactions and driving customer growth and retention.

We spent \$391 million on our subsidized rural construction initiative during the three months ended March 31, 2023. We expect that over time, our subsidized rural construction initiative will support customer growth, and in the first quarter of 2023, we activated approximately 44,000 subsidized rural passings. In addition, we continue to evolve and upgrade our network to provide higher Internet speeds and reliability and invest in our products and customer service platforms. We currently offer Spectrum Internet products with speeds up to 1 Gbps across our entire footprint and over the next three years, we plan to upgrade our network to provide multi-gigabit speeds. Our Advanced WiFi, a managed WiFi service that provides customers an optimized home network while providing greater control of their connected devices with enhanced security and privacy, is available to all Internet customers. We continue to invest in our ability to provide a differentiated Internet connectivity experience for our mobile and fixed Internet customers with increasing availability of out-of-home WiFi access points across our footprint. In addition, we continue to work towards the construction of our own 5G mobile data-only network leveraging our Citizen Broadband Radio Service ("CBRS") Priority Access Licenses. By continually improving our product set and offering consumers the opportunity to save money by switching to our services, we believe we can continue to penetrate our expanding footprint and capture more spend on additional products for our existing customers.

We realized revenue, Adjusted EBITDA and income from operations during the periods presented as follows (in millions; all percentages are calculated using whole numbers; minor differences may exist due to rounding):

	Three Months Ended March 31,		
	2023	2022	% Change
Revenues	\$ 13,653	\$ 13,198	3.4 %
Adjusted EBITDA	\$ 5,322	\$ 5,187	2.6 %
Income from operations	\$ 2,904	\$ 2,751	5.6 %

Adjusted EBITDA is defined as consolidated net income plus interest expense, net, income taxes, depreciation and amortization, stock compensation expense, other income (expenses), net and other operating (income) expenses, net, such as special charges and (gain) loss on sale or retirement of assets. See "Use of Adjusted EBITDA and Free Cash Flow" for further information on Adjusted EBITDA and free cash flow.

Growth in total revenue was primarily due to pass-through of programming cost increases to video customers and other price adjustments and growth in our residential mobile, Internet and commercial customers. Adjusted EBITDA growth and changes in income from operations were impacted by growth in revenue and increases in operating costs and expenses, primarily other costs of revenue and costs to service customers partly offset by a decrease in programming expense.

The following table summarizes our customer statistics for Internet, video, voice and mobile as of March 31, 2023 and 2022 (in thousands except per customer data and footnotes).

^(a) We calculate the aging of customer accounts based on the monthly billing cycle for each account. On that basis, as of March 31, 2023 and 2022, customers include approximately 119,800 and 132,500 customers, respectively, whose accounts were over 60 days past due, approximately 42,100 and 29,000 customers, respectively, whose accounts were over 90 days past due and approximately 217,800 and 74,500 customers, respectively, whose accounts were over 120 days past due. Bad debt expense associated with these past due accounts has been reflected in our consolidated statements of operations. The increase in accounts past due is predominately due to pre-existing and incremental unsubsidized amounts of customers' bills for those customers participating in government assistance programs, including video services. These customers are downgraded to a fully subsidized Internet-only service.

^(b) Customer relationships include the number of customers that receive one or more levels of service, encompassing Internet, video, voice and mobile services, without regard to which service(s) such customers receive. Customers who reside in residential multiple dwelling units ("MDUs") and that are billed under bulk contracts are counted based on the number of billed units within each bulk MDU. Total customer relationships exclude enterprise and mobile-only customer relationships.

^(c) Monthly residential revenue per residential customer is calculated as total residential quarterly revenue divided by three divided by average residential customer relationships during the respective quarter and excludes mobile-only customers.

^(d) Monthly SMB revenue per SMB customer is calculated as total SMB quarterly revenue divided by three divided by average SMB customer relationships during the respective quarter and excludes mobile-only customers.

- (e) Mobile lines include phones and tablets which require one of our standard rate plans (e.g., "Unlimited" or "By the Gig"). Mobile lines exclude wearables and other devices that do not require standard phone rate plans.
- (f) Enterprise PSUs represent the aggregate number of fiber service offerings counting each separate service offering at each customer location as an individual PSU.

Critical Accounting Policies and Estimates

For a discussion of our critical accounting policies and the means by which we develop estimates therefore, see "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our 2022 Annual Report on Form 10-K. There have been no material changes from the critical accounting policies described in our Form 10-K.

Revenues. Total revenues grew \$455 million for the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to price adjustments and increases in the number of residential mobile, Internet and commercial customers.

Revenues by service offering were as follows (dollars in millions; all percentages are calculated using whole numbers; minor differences may exist due to rounding):

	Three Months Ended March 31,		
	2023	2022	% Change
Internet	\$ 5,718	\$ 5,452	4.9 %

Other	683	508	34.5 %
	<u>\$ 13,653</u>	<u>\$ 13,198</u>	3.4 %

The increase in Internet revenues from our residential customers is attributable to the following (dollars in millions):

	Three months ended March 31, 2023 compared to three months ended March 31, 2022 Increase / (Decrease)
Increase related to rate and product mix changes	\$ 226
Increase in average residential Internet customers	40
	<u>\$ 266</u>

The increase related to rate and product mix was primarily due to promotional roll-off and rate adjustments. Residential Internet customers grew by 178,000 customers from March 31, 2022 to March 31, 2023.

Video revenues consist primarily of revenues from video services provided to our residential customers, as well as franchise fees, equipment service fees and video installation revenue. The decrease in video revenues is attributable to the following (dollars in millions):

	Three months ended March 31, 2023 compared to three months ended March 31, 2022 Increase / (Decrease)
Decrease in average residential video customers	\$ (223)
Increase related to rate and product mix changes	131
	<u>\$ (92)</u>

Residential video customers decreased by 833,000 from March 31, 2022 to March 31, 2023. The increase related to rate and product mix was primarily due to pass-through of programming cost increases and promotional roll-off and was partly offset by a higher mix of lower cost video packages within our video customer base.

The decrease in voice revenues from our residential customers is attributable to the following (dollars in millions):

	Three months ended March 31, 2023 compared to three months ended March 31, 2022 Increase / (Decrease)
Decrease in average residential voice customers	\$ (44)
Increase related to rate	26
	<u>\$ (18)</u>

Residential wireline voice customers decreased by 992,000 customers from March 31, 2022 to March 31, 2023.

Residential mobile service revenues increased \$110 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to an increase of 1,977,000 mobile lines from March 31, 2022 to March 31, 2023.

The increase in SMB revenues is attributable to the following (dollars in millions):

	Three months ended March 31, 2023 compared to three months ended March 31, 2022 Increase / (Decrease)
Increase in SMB customers	\$ 28
Decrease related to rate and product mix changes	(7)
	<u>\$ 21</u>

SMB customers grew by 52,000 from March 31, 2022 to March 31, 2023.

Enterprise revenues increased \$21 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to an increase in Internet PSUs partly offset by lower wholesale PSUs. Enterprise PSUs increased 14,000 from March 31, 2022 to March 31, 2023.

Advertising sales revenues consist primarily of revenues from commercial advertising customers, programmers and other vendors, as well as local cable and advertising on regional sports and news channels. Advertising sales revenues decreased \$28 million during the three months ended March 31, 2023 as compared to the corresponding period in 2022 primarily due to a decrease in political and local ad revenue partly offset by higher advanced advertising.

Other revenues consist of revenue from mobile and video device sales, processing fees, regional sports and news channels (excluding intercompany charges or advertising sales on those channels), subsidy revenue, home shopping, wire maintenance fees and other miscellaneous revenues. Other revenues increased \$175 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to higher mobile device sales.

Operating costs and expenses. The increase in our operating costs and expenses, exclusive of items shown separately in the consolidated statements of operations, are attributable to the following (dollars in millions):

	Three months ended March 31, 2023 compared to three months ended March 31, 2022 Increase / (Decrease)
Programming	\$ (178)
Other costs of revenue	220
Costs to service customers	136
Sales and marketing	66
Other	137
	<u>\$ 381</u>

Programming costs were approximately \$2.8 billion and \$3.0 billion for the three months ended March 31, 2023 and 2022, representing 33% and 36% of total operating costs and expenses, respectively. Programming costs consist primarily of costs paid to programmers for basic, premium, video on demand, and pay-per-view programming. Programming costs decreased as a result of fewer customers and a higher mix of lower cost video packages within our video customer base partly offset by contractual rate adjustments, including renewals and increases in amounts paid for retransmission consent. First quarter 2023 programming costs include \$50 million of favorable adjustments, which is similar in size to sports network rebates and other favorable adjustments in the first quarter of 2022.

Other costs of revenue increased \$220 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to higher mobile device sales and higher other mobile direct costs due to an increase in mobile lines.

Costs to service customers increased \$136 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to adjustments to job structure, pay and benefits to build a more skilled and longer tenured workforce resulting in lower frontline employee attrition compared to 2022, and additional activity to support the accelerated growth of Spectrum Mobile.

Sales and marketing increased \$66 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to higher staffing across sales channels and the accelerated growth of Spectrum Mobile.

The increase in other expense is attributable to the following (dollars in millions):

	Three months ended March 31, 2023 compared to three months ended March 31, 2022 Increase / (Decrease)
Stock compensation expense	\$ 61
Corporate costs	36
Enterprise	14
Other	26
	<u>\$ 137</u>

Stock compensation expense increased during the three months ended March 31, 2023 compared to the corresponding prior period primarily due to an increase in equity awards granted. Corporate and enterprise costs increased primarily due to higher labor costs.

Depreciation and amortization. Depreciation and amortization expense decreased by \$87 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to certain assets acquired in acquisitions becoming fully depreciated partly offset by an increase in depreciation as a result of more recent capital expenditures.

Other operating expenses, net. Other operating expenses, net increased \$8 million during the three months ended March 31, 2023 compared to the corresponding period in 2022 primarily due to an increase in employee termination costs.

Interest expense, net. Net interest expense increased by \$203 million for the three months ended March 31, 2023, compared to the corresponding period in 2022. The increase in net interest expense is the result of an increase in weighted average interest rates as well as an increase in weighted average debt outstanding of approximately \$4.7 billion during the three months ended March 31, 2023 compared to the corresponding period in 2022. The increase in weighted average debt outstanding is primarily due to the issuance of notes throughout 2022 and 2023.

Other income (expenses), net. The change in other income (expenses), net is attributable to the following (dollars in millions):

	Three months ended March 31, 2023 compared to three months ended March 31, 2022 Increase / (Decrease)
Gain (loss) on financial instruments, net (see Note 4)	\$ (41)
Net periodic pension benefits	(15)
Loss on equity investments, net	(72)
	<u>\$ (128)</u>

See Note 8 and the Note referenced above to the accompanying consolidated financial statements contained in “Item 1. Financial Statements” for more information.

Income tax expense. We recognized income tax expense of \$14 million and \$13 million for the three months ended March 31, 2023 and 2022, respectively.

Consolidated net income. Consolidated net income decreased \$179 million during the three months ended March 31, 2023 compared to the corresponding period in 2022, primarily as a result of the factors described above.

Use of Adjusted EBITDA and Free Cash Flow

We use certain measures that are not defined by U.S. generally accepted accounting principles (“GAAP”) to evaluate various aspects of our business. Adjusted EBITDA and free cash flow are non-GAAP financial measures and should be considered in addition to, not as a substitute for, consolidated net income and net cash flows from operating activities reported in accordance with GAAP. These terms, as defined by us, may not be comparable to similarly titled measures used by other companies. Adjusted EBITDA and free cash flow are reconciled to consolidated net income and net cash flows from operating activities, respectively, below.

Adjusted EBITDA eliminates the significant non-cash depreciation and amortization expense that results from the capital-intensive nature of our businesses as well as other non-cash or special items, and is unaffected by our capital structure or investment activities. However, this measure is limited in that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues and our cash cost of financing. These costs are evaluated through other financial measures.

Free cash flow is defined as net cash flows from operating activities, less capital expenditures and changes in accrued expenses related to capital expenditures.

Management and Charter’s board of directors use Adjusted EBITDA and free cash flow to assess our performance and our ability to service our debt, fund operations and make additional investments with internally generated funds. In addition, Adjusted EBITDA generally correlates to the leverage ratio calculation under our credit facilities or outstanding notes to determine compliance with the covenants contained in the facilities and notes (all such documents have been previously filed with the Securities and Exchange Commission (the “SEC”). For the purpose of calculating compliance with leverage covenants, we use Adjusted EBITDA, as presented, excluding certain expenses paid by our operating subsidiaries to other Charter entities. Our debt covenants refer to these expenses as management fees, which were \$374 million and \$342 million for the three months ended March 31, 2023 and 2022, respectively.

A reconciliation of Adjusted EBITDA and free cash flow to consolidated net income and net cash flows from operating activities, respectively, is as follows (dollars in millions):

	Three Months Ended March 31,	
	2023	2022
Consolidated net income	\$ 1,530	\$ 1,709
Plus: Interest expense, net	1,256	1,053
Income tax expense	14	13
Depreciation and amortization	2,199	2,286
Stock compensation expense	208	147
Other, net	115	(21)
Adjusted EBITDA	<u>\$ 5,322</u>	<u>\$ 5,187</u>
Net cash flows from operating activities	\$ 3,390	\$ 3,644
Less: Purchases of property, plant and equipment	(2,464)	(1,857)
Change in accrued expenses related to capital expenditures	(195)	10
Free cash flow	<u>\$ 731</u>	<u>\$ 1,797</u>

Liquidity and Capital Resources

Introduction

This section contains a discussion of our liquidity and capital resources, including a discussion of our cash position, sources and uses of cash, access to credit facilities and other financing sources, historical financing activities, cash needs, capital expenditures and outstanding debt.

Recent Events

In February 2023, CCO Holdings and CCO Holdings Capital Corp. jointly issued \$1.1 billion of 7.375% senior unsecured notes due March 2031 at par. The net proceeds were used for general corporate purposes, including repaying certain indebtedness, distributions to the Company's parent companies to fund buybacks of Charter Class A common stock and Charter Holdings common units and to pay related fees and expenses.

In February 2023, Charter Operating entered into an amendment to its credit agreement to replace London Interbank Offering Rate ("LIBOR") as the benchmark rate applicable to the Term B loans with Secured Overnight Financing Rate ("SOFR") and in March 2023, Charter Operating entered into another amendment to its credit agreement to incur a new Term B-3 loan with an aggregate principal amount of \$750 million maturing in 2030 concurrently with the cancelation of certain of Charter Operating's existing Term B-1 and B-2 loans, among other amendments. Pricing on the new Term B-3 loan is SOFR plus 2.25%. After giving effect to the amendments, the aggregate principal amount of Term B-1 loans is \$2.3 billion with pricing unchanged at SOFR plus 1.75% and the aggregate principal amount of Term B-2 loans is \$3.1 billion with pricing unchanged at SOFR plus 1.75%.

Overview of Our Contractual Obligations and Liquidity

We have significant amounts of debt. The principal amount of our debt as of March 31, 2023 was \$97.8 billion, consisting of \$14.6 billion of credit facility debt, \$55.9 billion of investment grade senior secured notes and \$27.3 billion of high-yield senior unsecured notes. Our business requires significant cash to fund principal and interest payments on our debt.

Our projected cash needs and projected sources of liquidity depend upon, among other things, our actual results, and the timing and amount of our expenditures. As we continue to grow our market penetration of our mobile product, we will continue to experience negative working capital impacts from the timing of device-related cash flows when we sell devices to customers pursuant to equipment installment plans. Further, in 2022, Charter became a meaningful federal cash tax payer as the majority of their net operating losses have been utilized, which will be funded by distributions from us. Free cash flow was \$731 million and \$1.8 billion for the three months ended March 31, 2023 and 2022, respectively. See the table below for factors impacting

free cash flow during the three months ended March 31, 2023 compared to the corresponding prior period. As of March 31, 2023, the amount available under our credit facilities was approximately \$3.3 billion and cash on hand was approximately \$292 million. We expect to utilize free cash flow, cash on hand and availability under our credit facilities as well as future refinancing transactions to further extend the maturities of our obligations. The timing and terms of any refinancing transactions will be subject to market conditions among other considerations. Additionally, we may, from time to time, and depending on market conditions and other factors, use cash on hand and the proceeds from securities offerings or other borrowings to retire our debt through open market purchases, privately negotiated purchases, tender offers or redemption provisions. We believe we have sufficient liquidity from cash on hand, free cash flow and Charter Communications Operating, LLC's ("Charter Operating") revolving credit facility as well as access to the capital markets to fund our projected cash needs.

We continue to evaluate the deployment of our cash on hand and anticipated future free cash flow including to invest in our business growth and other strategic opportunities, including our network evolution and expansion initiatives, the build-out and deployment of our CBRS spectrum, and mergers and acquisitions as well as distributions to parent companies for stock repurchases and dividends. Charter's target leverage of net debt to the last twelve months Adjusted EBITDA remains at 4 to 4.5 times Adjusted EBITDA, and up to 3.5 times Adjusted EBITDA at the Charter Operating first lien level. Our leverage ratio was 4.5 times Adjusted EBITDA as of March 31, 2023. As Adjusted EBITDA grows, we expect to increase the total amount of our indebtedness to maintain leverage within Charter's target leverage range. Excluding purchases from Liberty Broadband Corporation ("Liberty Broadband") discussed below, during the three months ended March 31, 2023 and 2022, Charter purchased in the public market approximately 2.2 million and 4.4 million shares of Charter Class A common stock, respectively, for approximately \$821 million and \$2.6 billion, respectively. Since the beginning of its buyback program in September 2016 through March 31, 2023, Charter has purchased approximately 152.0 million shares of Class A common stock and Charter Holdings common units for approximately \$69.4 billion, including purchases from Liberty Broadband and A/N discussed below.

In February 2021, Charter and Liberty Broadband entered into a letter agreement (the "LBB Letter Agreement"). The LBB Letter Agreement implements Liberty Broadband's obligations under the Amended and Restated Stockholders Agreement among Charter, Liberty Broadband and A/N, dated as of May 23, 2015 (as amended, the "Stockholders Agreement") to participate in share repurchases by Charter. Under the LBB Letter Agreement, Liberty Broadband will sell to Charter, generally on a monthly basis, a number of shares of Charter Class A common stock representing an amount sufficient for Liberty Broadband's ownership of Charter to be reduced such that it does not exceed the ownership cap then applicable to Liberty Broadband under the Stockholders Agreement at a purchase price per share equal to the volume weighted average price per share paid by Charter for shares repurchased during such immediately preceding calendar month other than (i) purchases from A/N, (ii) purchases in privately negotiated transactions or (iii) purchases for the withholding of shares of Charter Class A common stock pursuant to equity compensation programs of Charter. Charter purchased from Liberty Broadband 0.1 million and 1.0 million shares of Charter Class A common stock for approximately \$42 million and \$602 million during the three months ended March 31, 2023 and 2022, respectively.

In December 2016, Charter and A/N entered into a letter agreement, as amended in December 2017 (the "A/N Letter Agreement"), that requires A/N to sell to Charter or to Charter Holdings, on a monthly basis, a number of shares of Charter Class A common stock or Charter Holdings common units that represents a pro rata participation by A/N and its affiliates in any repurchases of shares of Charter Class A common stock from persons other than A/N effected by Charter during the immediately preceding calendar month, at a purchase price equal to the average price paid by Charter for the shares repurchased from persons other than A/N during such immediately preceding calendar month. A/N and Charter both have the right to terminate or suspend the pro rata repurchase arrangement on a prospective basis. During the three months ended March 31, 2023 and 2022, Charter Holdings purchased from A/N 0.3 million and 0.7 million Charter Holdings common units for approximately \$122 million and \$416 million, respectively.

As of March 31, 2023, Charter had remaining board authority to purchase an additional \$305 million of Charter's Class A common stock and/or Charter Holdings common units, excluding purchases from Liberty Broadband. Although Charter expects to continue to buy back its common stock consistent with its leverage target range, Charter is not obligated to acquire any particular amount of common stock, and the timing of any purchases that may occur cannot be predicted and will largely depend on market conditions and other potential uses of capital. Purchases may include open market purchases, tender offers or negotiated transactions. To the extent such purchases occur, CCO Holdings and its subsidiaries are the primary source for funding such purchases through distributions to their parent companies.

As possible acquisitions, swaps or dispositions arise, we actively review them against our objectives including, among other considerations, improving the operational efficiency, geographic clustering of assets, product development or technology capabilities of our business and achieving appropriate return targets, and we may participate to the extent we believe these

possibilities present attractive opportunities. However, there can be no assurance that we will actually complete any acquisitions, dispositions or system swaps, or that any such transactions will be material to our operations or results.

Financial Information about Guarantors, Issuers of Guaranteed Securities, Affiliates Whose Securities Collateralize a Registrant's Securities and Consolidated Subsidiaries

Each of CCO Holdings, Charter Operating, Time Warner Cable, LLC and Time Warner Cable Enterprises LLC (collectively, the "Issuers") and substantially all of Charter Operating's direct and indirect subsidiaries (the "Obligor Subsidiaries" and together with the Issuers, collectively, the "Obligor Group" and each an "Obligor") jointly, severally, fully and unconditionally guarantee the outstanding debt securities of the respective Issuers (other than the CCO Holdings unsecured notes) and Charter Operating's credit facilities on a senior basis (collectively, the "Guaranteed and Secured Debt"). Such guarantees are pari passu in right of payment with all senior indebtedness of the guarantors and senior in right of payment to subordinated obligations of the guarantors. Each guarantee will be limited to the maximum amount that can be guaranteed by the relevant guarantor without rendering the relevant guarantee, as it relates to that guarantor, voidable or otherwise ineffective or limited under applicable law, and enforcement of each guarantee would be subject to certain generally available defenses. The Guaranteed and Secured Debt is structurally subordinated to the creditors (including trade creditors) and preference shareholders (if any) of Charter Operating's non-guarantor subsidiaries.

The Guaranteed and Secured Debt and the subsidiary guarantees thereof are also secured by (i) a lien on substantially all of the assets of Charter Operating and the Obligor Subsidiaries, to the extent such lien can be perfected under the Uniform Commercial Code by the filing of a financing statement, and (ii) a pledge of substantially all of the equity interests of subsidiaries owned by Charter Operating or the Obligor Subsidiaries (the "Pledged Equity Interests"), as well as intercompany obligations owing to it by any of such entities ((i) and (ii) collectively, the "Collateral"). In addition, payments of a mortgage note, currently outstanding for approximately \$305 million, incurred by a single-asset special purpose entity to finance construction of the first building of the new Charter headquarters in Stamford, Connecticut are guaranteed by the Obligor Group and rank equally with the liens on the Collateral securing the Guaranteed and Secured Debt. No assets of any of Charter Operating's non-guarantor subsidiaries (including any capital stock owned by any such subsidiary) will constitute Collateral. The subsidiary guarantees are effectively senior to all unsecured debt or debt secured by junior liens of the subsidiary guarantors, in each case to the extent of the value of the collateral securing the guarantee obligations of the subsidiary guarantors. Upon the occurrence and during the continuance of an event of default under the Guaranteed and Secured Debt, subject to the terms of an intercreditor agreement, the security documents governing the Guaranteed and Secured Debt provide for (among other available remedies) the foreclosure upon and sale of the Collateral by the collateral agent(s) of the respective Guaranteed and Secured Debt and the distribution of the net proceeds of any such sale to the holders and/or the lenders of the Guaranteed and Secured Debt on a pro rata basis, subject to any prior liens on the Collateral. We believe there is no separate trading market for the Pledged Equity Interests.

Certain Charter Operating subsidiaries that are regulated entities are only designated as guarantor subsidiaries, and certain related assets (including the capital stock of such regulated entities) are only required to be pledged as Collateral, upon approval

by regulators. The guaranteed obligations and collateral of an Obligor Subsidiary (including Pledged Equity Interests) may be released under certain circumstances permitted under the documentation governing the Guaranteed and Secured Debt, including if an Obligor Subsidiary no longer qualifies as a “Subsidiary” of Charter Operating under transactions not prohibited by the Charter Operating credit agreement.

See Note 8 to the consolidated financial statements contained in our 2022 Annual Report on Form 10-K for further details about the terms, conditions and other factors that may affect payments to holders and the collateral arrangements of the Guaranteed and Secured Debt.

Because the assets, liabilities and results of operations of the combined Obligor Group are not materially different than corresponding amounts presented in the consolidated financial statements of CCO Holdings, summarized financial information of the Obligor Group have been omitted pursuant to SEC Regulation S-X Rule 13-01, *Financial Statements of Guarantors and Issuers of Guaranteed Securities Registered or Being Registered* and S-X Rule 13-02, *Affiliates Whose Securities Collateralize Securities Registered Or Being Registered*.

Limitations on Distributions

Distributions by us and our subsidiaries to a parent company for payment of principal on parent company notes are restricted under CCO Holdings indentures governing CCO Holdings' indebtedness, unless there is no default under the applicable indenture, and unless CCO Holdings' leverage ratio test is met at the time of such distribution. As of March 31, 2023, there was no default under any of these indentures, and CCO Holdings met its leverage ratio test based on March 31, 2023 financial results. There can be no assurance that CCO Holdings will satisfy its leverage ratio test at the time of the contemplated distribution.

In addition to the limitation on distributions under the various indentures, distributions by our subsidiaries may be limited by applicable law, including the Delaware Limited Liability Company Act, under which our subsidiaries may only make distributions if they have “surplus” as defined in the act.

Historical Operating, Investing, and Financing Activities

Cash and Cash Equivalents. We held \$292 million and \$392 million in cash and cash equivalents as of March 31, 2023 and December 31, 2022, respectively.

Operating Activities. Net cash provided by operating activities decreased \$254 million during the three months ended March 31, 2023 compared to the three months ended March 31, 2022, primarily due to an increase in cash paid for interest and changes in working capital, partly offset by an increase in Adjusted EBITDA of \$135 million.

Investing Activities. Net cash used in investing activities was \$2.7 billion and \$1.9 billion for the three months ended March 31, 2023 and 2022, respectively. The increase in cash used was primarily due to an increase in capital expenditures and changes in accrued expenses related to capital expenditures that increased by \$205 million.

Financing Activities. Net cash used in financing activities increased \$782 million during the three months ended March 31, 2023 compared to the three months ended March 31, 2022 primarily due to a decrease in the amount by which borrowings of long-term debt exceeded repayments, partly offset by a decrease in distributions to parent companies.

Capital Expenditures

We have significant ongoing capital expenditure requirements. Capital expenditures were \$2.5 billion and \$1.9 billion for the three months ended March 31, 2023 and 2022, respectively. The increase was primarily due to an increase in line extensions in connection with our subsidized rural construction initiative and continued residential and commercial network expansion. The increase in capital expenditures excluding line extensions was primarily driven by higher spend on network evolution, customer premise equipment and support capital. See the table below for more details.

We currently expect full year 2023 capital expenditures, excluding line extensions, to be between \$6.5 billion and \$6.8 billion. We expect 2023 line extensions capital expenditures to be approximately \$4 billion. The actual amount of capital expenditures in 2023 will depend on a number of factors including, but not limited to, the pace of our network evolution and expansion initiatives, supply chain timing and growth rates in our residential and commercial businesses.

Our capital expenditures are funded primarily from cash flows from operating activities and borrowings on our credit facility. In addition, our accrued liabilities related to capital expenditures decreased by \$195 million and increased by \$10 million for the three months ended March 31, 2023 and 2022, respectively.

The following tables present our major capital expenditures categories in accordance with National Cable and Telecommunications Association (“NCTA”) disclosure guidelines for the three months ended March 31, 2023 and 2022. These disclosure guidelines are not required disclosures under GAAP, nor do they impact our accounting for capital expenditures under GAAP (dollars in millions):

Item 4. Controls and Procedures.

As of the end of the period covered by this report, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our design and operation of disclosure controls and procedures with respect to the information generated for use in this quarterly report. The evaluation was based upon reports and certifications provided by a number of executives. Based on, and as of the date of that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective to provide reasonable assurances that information required to be disclosed in the reports we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Based upon the evaluation, we believe that our controls provide such reasonable assurances.

During the quarter ended March 31, 2023, there was no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
